

# PRODUCT SUPPORT

**DSC Dredge's Product Support Team is the dependable team our customers turn to for support, service, and guidance throughout the life of their dredge.**

Whether a dredge was built by DSC or another manufacturer, our mission remains the same: to keep it operating at peak efficiency while minimizing downtime. We support any client, on any brand of dredge. This level of commitment is made possible by DSC's dedicated team of Product Support technicians.

DSC's Product Support Specialists handle all matters including, but not limited to:

## OPERATIONAL SUPPORT

- Dredge Commissioning
- Logistic Arrangements
- Production Optimization
- Dredge Launches & Moves
- On the Job Training for Dredge Operations and Maintenance

## QUALITY & ASSESSMENT

- Quality Control
- Condition Evaluating
- Predictive Maintenance Analysis
- Production Calculations

## MAINTENANCE & REPAIR

- Proactive Maintenance
- Repairs
- General Troubleshooting
- Blasting & Painting
- Inspections
- Field Modifications
  - Retrofits & Upgrades

# PRODUCT SUPPORT

**Our goal is to extend the lifespan of your equipment and empower your team to maintain maximum efficiency throughout your project's lifecycle, for any dredge, old or new.**

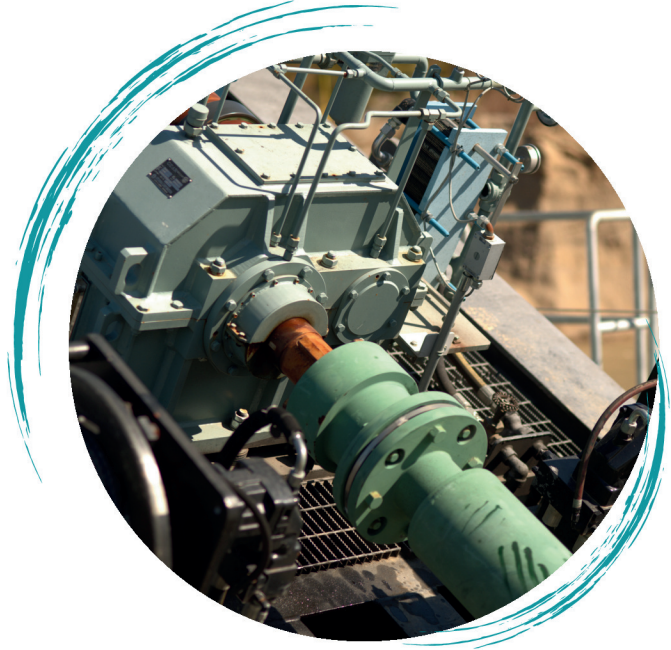

## OPERATIONAL SUPPORT

To ensure a seamless transition from delivery to peak performance, our Product Support team provides expert guidance every step of the way. We meticulously manage commissioning, logistics, and dredge moves, while optimizing production and providing comprehensive training.

## MAINTENANCE & REPAIRS

Minimize disruptions and maximize uptime with our comprehensive **Maintenance & Repair** solutions. We deliver proactive maintenance strategies, rapid-response repairs, and expert troubleshooting to keep your dredge operating smoothly. Our specialized services, including precision blasting & painting, detailed inspections, and seamless field modifications, retrofits, and upgrades, ensure your equipment functions at its best.

## QUALITY & ASSESSMENT

Ensure the reliability and long-term value of your dredging investment with our **Quality and Assessment** services. Our comprehensive approach, encompassing rigorous quality control, detailed condition evaluations, and predictive maintenance analysis, to provide a clear understanding of your dredge's performance. These insights enable optimized maintenance strategies, extending the operational life of your equipment, and allow us to identify and address potential issues early, safeguarding your equipment's performance and minimizing costly downtime.
